

The Art of the Party

The buzz surrounding the parties at Art Basel and its related art fairs proves to the world that Miami is the center of the art universe, at least in December.

"Get ready cause we're coming through, we like to party." These words from the song by Crazy Frog, "We Like To Party", seems to define the spirit of the party-hopping art aficionados who will descend upon Miami December 4-10. With more than ten art fairs taking place simultaneously, throngs of anxious collectors will shell out millions of dollars, artist's careers will be propelled and contemporary art history made.

Art-minded party folk should have no problem filling their dance cards. Cracking the party code and getting into the fashionable parties surrounding the art fairs in Miami this month doesn't require making a pact with the devil, just a little stamina, and, perhaps a can of Red Bull. So, strap on your Pradas, because Miami is not just serious about art, it is serious about the art of the party. Who cares if you max out your credit cards buying art, in this town you will still be able to party, dine and enjoy millions of dollars worth of art, all for free or close to it.
